Information on Hard Drives

- You can supply your own empty external hard drive or purchase one from Digital Roots Studio.
- If the hard drive is not empty, Digital Roots Studio is not responsible for any files that may be compromised.
- Your hard drive must be formatting NTFS or exFat; there is no charge for us to do this for you.
- We recommend a hard drive that is both PC and Mac compatible without having to format it.
- Thumb drives with the necessary space available are fine to use for still images. We do not recommend using a thumb drive for video files or slideshows.
- For Standard Def, 1 hour of footage = approx. 15 GB
- For Hi Def, 1 hour of footage = approx. 40 GB
- For MPG4/H264, 1 hour of footage = approx. 1.5 GB

*Blu-Ray discs require a Blu-Ray player

Terms & Conditions: Please read and sign below (required)

1. I assert that I am either the copyright holder for the enclosed photos, film, videos, audio, or I have the legal right to have them reproduced. Furthermore, I agree to indemnify and hold harmless Digital Roots Studio from any legal actions brought against it in connection with the services performed for me.
2. Digital Roots Studio's liability for loss or damage is limited to the value of the order.
3. A set-up charge of \$10 will be applied to orders less than \$10.
4. All files are kept in the Digital Roots Studio system for 2 weeks from the invoice date. I agree to retrieve my materials within this timeframe; any changes thereafter will accrue editing time.
5. I accept that the final invoice may exceed the estimated cost by \$40 without prior notification. If the final invoice will exceed the estimate by \$41 or more, DRS will notify me for confirmation.
6. I have read and understood these terms and conditions and authorize Digital Roots Studio to conduct the specified work.
